INTERESTS

- New Technology: Keen interest in software developments - self-taught in many applications (Adobe Photoshop, Canva, React, NodeJS, Wordpress).
- Reading: For me is very important to learn new things on daily basis, therefore I read a minimum of 20 pages per day. I am interested in books on personal development and improving finances.
- Digital Marketing: Knowledge of SEO optimization writing and blogging, Had several successful online stores, as well as half a year of regular sales in the eBay and other similar platforms.
- Real Estates: Trying to always be aware of the current state of the property market, the needs of all participants, as well all the trends that determine the direction of the market. Ready fo good deal anytime.
